-Will Hinde and wife are riding in a fine new buggy with a fine new harness purchased from H. C. Schmidt. M. B. Thomas treated his family to a fine under cut surry and nice harness, which he also bought of H. C. Schmidt.  
-W. H. C. Sterrett is up and abreast with the times, improving his store house and premises, and is also making valuable improvements to several of his residence properties. Henry says that he is going to have things in ship-shape by the time the first motor car passes over the line.  
-While on route to Oregon during the storm Monday, a young man working for N. F. Murray had a narrow escape from death. A tree about two and a half feet in diameter was blown down while he was passing under it. It smashed the lateral part of his wagon and came near crushing him.  
-Mrs. Kelley, of Elm Grove, who was taken to St. Joseph some two months ago, has recently been recovered. Her standing case of chronic granulated lids returned last week entirely recovered. Mrs. Kelly while in St. Joseph was under the professional care of Dr. Barton Pitts, the eye and ear specialist.  
-Ed. Hart, the popular and bustling attorney, of Matland, was in town last Friday attending court. Ed is also secretary of the Newway Valley Fair association, and says that the fair this year promises to be better than years. They will not spare an effort to make it a "cracker-jack," and the judges and the "Punkin Show" ever held in the state.  
-C. Holditzell, the man that some paper published in this county, reported as having placed his house on wheels, so that he could rove at a moment's notice, was in town last week, interviewing his hosts of friends. He also made a pleasant call, and said while he had not yet returned from Mound City to Craig, he was engaged in the lumber business there. We always like to meet Neal for he is a pleasant and companionable gentleman.  
-Pettis county vineyards have been considerably devastated by an insect called the grapevine leaf-bee. United States Entomologist Howard advises going through the vineyard with strips of cotton cloth, held open at each end by means of a lath, to which the cloth is tacked. These strips should be held under each vine and the support jarred. All of the beetles upon the vine will drop on the cloth, which should be saturated with kerosene. Eggs on the vines can be destroyed by spraying with Paris green in the proportion of one fourth of a pound to forty gallons of water.  
-Mrs. S. E. Wolfenberger, land lady of the Hotel Midway, this city, received the intelligence last week, that her daughter, by a former husband, Mr. Chambers, had been drowned in the Missouri river, near Bartlett, Iowa, April 21. The girl was aged 10 years, and was in company with a half sister, aged 17 years, also a daughter of Mr. Chambers, who is thought to have been drowned also, as they were traced to the river, three miles distant, where their tracks were discovered. At this point the banks were very steep and about six feet down to the current, which at this place was very swift. Marks were visible on the bank where they had slipped down to the water. The bodies have not yet been recovered. Mrs. Wolfenberger returned home Monday of this week. She has the sympathy of many in her sad hour of affliction.

Yours in Need,

G. W. CUMMINS,

(Woodland Hotel Block.) OREGON, MO.

-C. W. Lukens, D.D.S., will be at the Midland hotel, Mound City, next week, Tuesday to Saturday, May 7 to 11, inclusive. See him for first-class dental work.

-We thought Holt county was slow enough on sending in election returns of school commissioner, but here comes a report that thirty-two districts in Carroll county failed to certify in any report.

-A large area of potatoes have been planted this year, as the price has been so high the farmers are anxious to get them in, but it is hoped that the supply will be sufficient in magnitude to prevent the importation from foreign countries.

-We see from our exchanges that the State Superintendent of schools presided at a meeting recently held at Sedalia, composed of county commissioners and principals of schools, the object of the meeting being to discuss the revision of the institute course of study; the best plan for improving the work of the institute, the best way of grading and certifying teachers, and other matters. It is our opinion that something of this kind should be done in Holt county.

-Engineer Elin, of the Oregon and Forest City Motor line, in a letter to one of our business men, says it will be impossible for him to be in Oregon before Monday of next week, as it will occupy his time until then, completing plans and details for their power house and car barn. The bridge specifications are now on file in the mayor's office, and can be examined by all those interested. Much interest is felt in this line by our people, as they all look forward to active operations with much satisfaction.

-George Gusewell, had a narrow escape from death Monday. While driving a team, N. F. Murray's, through the timber in the bottom during the storm, an old tree standing near the road, blew down, falling across the road just as he was passing, and struck the hind wheel and bed of the wagon, mashing them into flinders. A large limb struck George in the head and shoulder so he jumped from the wagon and dropped the rein, and by holding to the left it turned the team which ran them in to a thicket which stopped them.

-The address to the graduating class of our High school, was delivered on Thursday, the evening before commencement, by Rev. Pope Yeaman, in Starrett's opera house. The house was crowded with a splendid audience, and the high school was out in force. Dr. Yeaman's address was solid and full of ripe thought, and exceedingly well suited to the occasion, and was listened to by all with intense interest. The speaker was laboring under a severe attack of the gripe and was considerably fatigued; yet one could see plainly that he was of no mean ability.

-Buy your buggies of D. M. Martin, and you are sure to get the best.

For ladies, gentlemen's or children's tan shoes, always go to Pitt's. It will pay you.

-Zook's gallery is the place for fine photographic work as you can get for less money.

A large line of wall paper just from the factory, can be found at Proud's drug store.

-Jack Hays (colored), was called to Forest Green, Charlton county, by the sad news, announcing the death of his aged father, who had passed the allotted time of man, by almost a score-and-a-half, having almost reached the century mark.

-Mrs. Hume, under the auspices of the Ladies' Missionary society of the Presbyterian church, lectures in the Presbyterian church tonight, Friday, on the subject of the "Home Land and Missions at Home." A cordial invitation is extended to all. Free, except collection at close.

-Everything points to a very abundant yield in all kinds of fruit. John Ingraham, of this city, has a seedling peach tree that has one four-doulet, one triplet and several twins. Mr. Ingraham says that the only way that he can account for this, is the fact that the tree is made to the line fence between him and Henry Peret, and as our citizens know both of these gentlemen it is useless for further comment.

-A. E. Harvey, a lawyer, of Lincoln, Nebraska, was in our city, Tuesday, trying to find if possible, the location of his sister's grave who was buried in the old cemetery. She was the wife of Oren Root, and died in this city in 1851 while on her way to California, in company with her husband, and others. Mr. Harvey was unsuccessful, and if any of the old settlers can give him the desired information, it will be greatly appreciated.

-Janitor Nipbor and wife, of the public school building, were very agreeably surprised on returning to their rooms in the school building, to find a short visit, one day last week, to find a handsome rocker occupying a portion of their domicile. On investigation they learned that the chair was a token of esteem, presented by the teachers of the school. They desire to return their sincere thanks to the teachers kindly remembering them.

-H. C. Schmidt now has the sole agency of the celebrated Columbus Buggy Co.'s goods. Every one knows them. They have no equal.

-Mrs. Elizabeth Evans was called to Trenton, last week, by a telegram, announcing the serious illness of her brother-in-law, Mr. Jones, who has since died.

-During Dr. Lukens' absence next week Dr. Whitmer will have charge of the office, and all work done by him will be warranted the same as if done by Dr. Lukens himself.

-Rev. J. H. Tobias will preach at the M. E. church of this city, this Friday evening, May 3d. Quarterly meeting will be held over Sunday at the Benton Evangelical church.

-Remember you can buy first class reliable, well-made buggies, surreys, road wagons and harness, as cheap of H. C. Schmidt, as some other dealer ask for cheap, second class goods.

-Did you know that Holt county is going to have a grand fair this fall? You did. Well then go to work and prepare for the fair that will help to make it a grand success. Every farmer should give special care to something to put on exhibition.

-Last Saturday was not a very good day for wolves, but twelve scalps were brought in; they were genuine too, for several of the whelps or cubs were brought in alive. James and Riley Huitt killed an old wolf with five cubs. They were found a short distance east of the Judge's residence. Joe Kunkel, of the Kinsey district, above Forest City, brought in five cubs, and Ed Brodbeck brought in the scalp of an old one killed on his place between Oregon and Forest City.

-J. R. Milne brought into the horticultural headquarters samples of alfalfa for lucerne, grown upon his place in Forbes township, 23 inches in height. The seed was obtained from Clarke Irvine ten years ago. The vigorous growth made by these samples argues much in favor of this plant for pasturing or hay in dry seasons. Mr. Milne says that very much of his clover was winter killed, while his alfalfa did not suffer at all.

-Judge William Leeper, of Nowaday county, has been in town several days this week. He and Henry Livinslie, also of Nowaday, had a case in our circuit court. The Judge is now, as he terms it, in his fourth quarter of a century and is a well-preserved old man. He has traveled extensively and has observed closely. With the result, he is full of information. He was born in Dearborn county, Indiana, and came to Nowaday county in 1865. He says this part of the country in the best he has seen in all his travels, and he has been into all of the so-called "best parts" from Kentucky to Puget Sound.
